

# PLAIN CORNICE

# NEW PRODUCT DESIGNS, SPECIFICATION SHEETS AND CAD FILES

## New Product Designs

New designs are created on regular basis, the best way to present them is through our product catalogue which gets updated on a quarterly basis.

This is an ongoing project and will include old and new items presented with a 3D image to give you and your client, a clearer picture than what is currently seen in the brochures.

Many Architects and Designers may find this useful and alleviate the need for physical samples. If a physical sample is needed we would be happy to accommodate, give us a call at 1-866-745-5560 or email us at [info@classicmouldings.com](mailto:info@classicmouldings.com).

Please note: there may be a cost associated with the production and/or delivery of samples.

## CAD Files

All items in this product catalogue have a CAD file available for approved clients. If you would like to request a CAD file call us at 1-866-745-5560 or e-mail us at [e-spec@classicmouldings.com](mailto:e-spec@classicmouldings.com). At this time CAD files are not available directly from our website.

## Custom Design

If you cannot find a suitable design or size, in either our brochures or product catalogues, please contact us directly. We would be happy to custom manufacture a part that meet your specific needs.

# PLAIN CORNICE

A projecting moulding located where the ceiling and wall meet; in classical architecture, the projecting top of an entablature; any projecting, ornamental moulding along the top of a wall, arch, etc. that finishes or “crowns” it; from the Latin corona.

## CORNICE SELECTION

In order to choose cornice moulding for any room, a few particulars of the space should be considered. These include size and style of the room, ceiling height, furniture to be placed in the room, etc. In the end, however, your final choice should be a matter of taste.

Cornice moulding may be installed on new plaster, drywall, wood or most other surfaces. A number of mouldings can be used together in combination. If you have not seen a certain moulding or combination of mouldings used, whether in our showroom, in a magazine or in other homes, it does not mean that it cannot be constructed. Imagination is the only limit.

Any custom moulding can be created, and any style of moulding can be reproduced. Curved walls are a specialty. Any chosen cornice can be produced for installation on a curved surface.
